Columbus, GA 31909

Hey GameStop Team,

I'm reaching out to apply for the Assistant Store Manager position I found on your website. With my background in customer service, leadership, and tech, I believe I'm a strong candidate for this role. Gaming is a huge passion of mine, and I've spent a lot of time not just playing but also building games too.

In my role as a Keyholder at Dollar General, I handled leadership duties, customer service, and daily operations, including managing the POS system, inventory, and team dynamics. When I worked as a Web Development Intern with the Harris County School Board that gave me hands-on experience working with clients and management to create websites and solutions. With my technical skills in game development and programming, I have a unique way of connecting with customers, thinking outside the box, and adapting quickly in a fast-paced environment like GameStop.

Thanks for considering my application. I'd love the chance to join the GameStop team and use my leadership, customer service, and gaming expertise in this position. You can check out more about me and my projects at [www.noahdoub.com](http://www.noahdoub.com). I'm excited about the possibility of contributing to your store's success.

Best,

Noah Doub
